

CATS

And why you should get one!

Cats are **awesome**, you should *totally* get one!

Cats are independant and don't require you to walk them 3 times a day, so just get one to please the cat gods that reside in another world, watching over us.

Instead of getting a pet that is completely **submissive**, you should get a pet that won't *bug* you all the time. There is even a musical about cats, appropriately called *CATS*. It's about a group of felines living in New York City. There is a cute quote I found on the Internet:

The smallest feline is a masterpiece.

-Leonardo da Vinci
